

Lithostar Z -9200- U

Z-9200-U contain surfactant and thus reduces the alcohol in dampening system. it is highly buffered and results excellent water balance on conventional dampening system . Work well on water hardness 0-300ppm

PROPERTIES :

- Works well with all types of plates
- Wide latitude , compatible with all inks and stacks
- Excellent PH balance .
- Excellent water balance .
- Quick and clean start up
- Prints sharper

SPECIFICATION:

PH : 4.7 ± 0.2

Density : 1.03 ± 0.01

Surface density: 37.2 ± 0.2

Dosage level : %1-3

PACKAGING:

10 kg pail
