

Persia Ink

LETTERPRESS UV INKS

This series specially formulated for use on high speed letterset machine for printing .

Properties:

•Excellent adhesion on PP And PS

- •Excellent uv response
- •Excellent chemical resistance
- very good gloss

Colour

White	10LUV4110	Transparent	10LUV5110
Yellow	20LUV4120	Orange	25LUV4125
Red	30LUV4130	Warm Red	30LUV4127
Cyan	40LUV4140	Process Red	30LUV4130
Black	80LUV4180	Process Blue	40LUV4140
		Reflex Blue	45LUV4145

Reducer

00OUV4200

In order to lighter the colour and also improve the flow add %10 to inks .

Drying additive 00DUV9686

For high ink thickness adding %3 speed up the polymerisation process and hard through dry film

Cleaners

00SLV4238

Acological solvent with mild odour. Miscible with water . Mix with %30 water and use.

00SLV4237

Good solvent and controlled evaporation .

00SLV2520

Very strong and effective solvent decrease the power mixed with %50 isopropyl alcohol

Shelf life

6 month if stored in temperature below 20°c . lower the temperature increase the shelf life . Close the cans after use . Store in cold , dry places . Uv inks start polymerisation from the bottom of cans .

Package

2.5 kg vacuum cans

1 k.g vacuum cans
