

HYDROFIX 9053

It was developed for use on modern sheet fed offset presses . It is an slightly acidic formulated to give the best ink/water balance . It works perfectly on both alcohol damping and conventional systems. Hydro fix 9053 offers quicker start ups and restarts, improved ink/water balance and overall improvement in print quality.

PROPERTIES:

- Very fast ink/water balance especially at start up .
- Optimally reduce surface tension to from a thin stable film of damping solution in damping roller.
- Help of reduce build up paper particles on rubber blanket.
- Less risk of corrosion.
- Minimal waste.
- Prevent growth of algae.
- Compatible with all ink types

SPECIFICATION:

PH	4.7 ± 0.1
Density	1.07 ± 0.01
Storage stability	2 years under normal condition
Surface tension	31.7 dynes/cm

PRESS READY SOLUTION:

Dosage level	2-3%
PH	4.8 ± 0.2

PACKAGING:

4 kg gallon
20 kg pail
